ACME UNITED CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

1. Basis of Presentation

The accompanying condensed consolidated financial statements include all adjustments necessary to present fairly the financial position, results of operations and cash flows of Acme United Corporation (the "Company"). These adjustments are of a normal, recurring nature. However, the financial statements do not include all the disclosures normally required by accounting principles generally accepted in the United States or those normally made in the Company's Annual Report on Form 10-K. Please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2023 for such disclosures. The condensed consolidated balance sheet as of December 31, 2023 was derived from the audited consolidated balance sheet as of that date. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements and notes thereto included in the Company's 2023 Annual Report on Form 10-K.

The Company has evaluated events and transactions subsequent to March 31, 2024 and through the date these condensed consolidated financial statements were issued.

Recently Issued Accounting Standards

In November 2023, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*, which requires the disclosure of additional segment information. ASU No. 2023-07 is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024; this ASU allows for early adoption. The Company is currently evaluating the impact of adopting ASU 2023-07.

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*, which requires disaggregated information about a reporting entity's effective tax rate reconciliation as well as information on income taxes paid. ASU No. 2023-09 is effective for annual periods beginning after December 15, 2024. The guidance is to be applied on a prospective basis with the option to apply the standard retrospectively; this ASU allows for early adoption. The Company is currently evaluating the impact of adopting ASU 2023-09.

2. Commitments and Contingencies

There are no pending material legal proceedings to which the Company is a party, or, to the actual knowledge of the Company, contemplated by any governmental authority.

3. Revenue from Contracts with Customers

Nature of Goods and Services

The Company recognizes revenue from the sales of a broad line of products that are grouped into two main categories: (a) first aid and medical; and (b) cutting and sharpening. The first aid and medical category includes first aid kits and refills, over-the-counter medications and a variety of medical products. The cutting and sharpening category includes scissors, knives, paper trimmers, pencil sharpeners and other sharpening tools. Revenue recognition is evaluated through the following five steps: (i) identification of the contract or contracts with a customer; (ii) identification of the performance obligations in the contract; (iii) determination of the transaction price; (iv) allocation of the transaction price in the contract; and (v) recognition of revenue when or as a performance obligation is satisfied.

When Performance Obligations Are Satisfied

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. Revenue is generated by the sale of the Company's products to its customers. Sales contracts (purchase orders) generally have a single performance obligation that is satisfied at a point in time, upon shipment or delivery, depending on the terms of the underlying contract. Revenue is measured based on the consideration specified in the contract. The amount of consideration we receive and revenue we recognize is impacted by incentives ("customer rebates"), including sales rebates, which are generally tied to sales volume levels, in-store promotional allowances, shared media and customer catalog allowances and other cooperative advertising arrangements; freight allowance programs offered to our customers; and allowance for returns and discounts. We generally recognize customer rebate costs as a deduction to gross sales at the time that the associated revenue is recognized.

Significant Payment Terms

Payment terms for each customer are dependent on the agreed upon contractual repayment terms. Payment terms typically are between 30 and 90 days and vary depending on the size of the customer and its risk profile to the Company. Some customers receive discounts for early payment.

Product Returns

The Company accepts product returns in the normal course of business. The Company estimates reserves for returns and the related refunds to customers based on historical experience. Reserves for returned merchandise are included as a component of “Accounts receivable” in the condensed consolidated balance sheets.

Practical Expedient Usage and Accounting Policy Elections

For the Company’s contracts that have an original duration of one year or less, the Company uses the practical expedient in ASC 606-10-32-18 applicable to such contracts and does not consider the time value of money in relation to significant financing components. The effect of applying this practical expedient election did not have an impact on the Company’s condensed consolidated financial statements.

Per ASC 606-10-25-18B, the Company has elected to account for shipping and handling activities that occur after the customer has obtained control as a fulfillment activity instead of a performance obligation. Furthermore, shipping and handling activities performed before transfer of control of the product also do not constitute a separate and distinct performance obligation. The effect of applying this practical expedient election did not have an impact on the Company’s condensed consolidated financial statements.

The Company has elected to exclude from the transaction price those amounts which relate to sales and other taxes that are assessed by governmental authorities and that are imposed on and concurrent with a specific revenue-producing transaction and collected by the Company from a customer.

Applying the practical expedient in ASC 340-40-25-4, *Other Assets and Deferred Costs*, the Company recognizes the incremental costs of obtaining contracts as an expense when incurred. These costs are included in “Selling, general and administrative expenses.”

Disaggregation of Revenues

The following table represents external net sales disaggregated by product category, by segment (amounts in thousands):

For the three months ended March 31, 2024

	<u>United States</u>	<u>Canada</u>	<u>Europe</u>	<u>Total</u>

Total Net Sales	\$ 38,853	\$ 3,257	\$ 3,728	\$ 45,838

4. Debt and Shareholders’ Equity

Long-term debt consists of (i) borrowings under the Company’s revolving loan agreement with HSBC Bank, N.A. (“HSBC”) and (ii) amounts outstanding under the fixed rate mortgage on the Company’s manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA. The revolving loan agreement provides for borrowings of up to \$65 million at an interest rate of Secured Overnight Financing Rate (“SOFR”) plus a margin of +1.75%; interest is payable monthly. The credit facility has an expiration date of May 31, 2026. The Company must pay a facility fee, payable quarterly, in an amount equal to one eighth of one percent (.125%) per annum of the average daily unused portion of the revolving credit line. The facility is intended to provide liquidity for growth, acquisitions, dividends, share repurchases, and other operating activities. Under the revolving loan agreement, the Company is required to maintain a specific ratio of funded debt to EBITDA, a fixed charge coverage ratio and must have annual net income greater than \$0, measured as of the end of each fiscal year. As of March 31, 2024, the Company was in compliance with the covenants under the revolving loan agreement as then in effect.

As of March 31, 2024 and December 31, 2023, the Company had outstanding borrowings of \$23,347,000 and \$13,165,000, excluding deferred financing costs of \$53,000 and \$60,000, respectively, under the Company's revolving loan agreement with HSBC.

The Company's manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA were financed by a fixed rate mortgage with HSBC at a fixed interest rate of 3.8%. The Company entered into the agreement on December 1, 2021. Commencing on January 1, 2022, payments of principal and interest are due monthly, with all amounts outstanding due on maturity on December 1, 2031. As of March 31, 2024 and December 31, 2023, long-term debt related to the mortgage consisted of the following (amounts in '000's):

	March 31, 2024		December 31, 2023	
Mortgage payable - HSBC Bank N.A.	\$	10,719	\$	10,823
Less debt issuance costs		(116)		(120)
		<u>10,603</u>		<u>10,703</u>
Less current maturities		424		419
Long-term mortgage payable less current maturities	\$	<u>10,179</u>	\$	<u>10,284</u>

During the three months ended March 31, 2024, the Company issued a total of 14,438 shares of common stock and received aggregate proceeds of \$323,000 upon exercise of employee stock options. Also, during the three months ended March 31, 2024, the Company issued 2,242 shares of common stock to optionees who had elected a net share settlement of certain of their respective options. During the three months ended March 31, 2024, the Company paid approximately \$296,000 to optionees who had elected a net cash settlement of certain of their respective options.

5. Segment Information

The Company reports financial information based on the organizational structure used by the Company's chief operating decision maker for making operating and investment decisions and for assessing performance. The Company's reportable business segments consist of: (1) United States; (2) Canada; and (3) Europe. As described below, the activities of the Company's Asian operations are closely linked to those of the U.S. operations; accordingly, the Company's chief operating decision maker reviews the financial results of both, on a consolidated basis, and as such, the results of the Asian operations have been aggregated with the results of the United States operations to form one reportable segment called the "United States segment" or "U.S. segment". Each reportable segment derives its revenue from the sales of first aid and medical products, cutting and sharpening devices and measuring instruments for school, office, home, hardware, sporting and industrial use.

Domestic sales orders are filled primarily from the Company's distribution centers in North Carolina, Washington, Massachusetts, Tennessee, Florida, New Hampshire and California. The Company is responsible for the costs of shipping, insurance, customs clearance, duties, storage and distribution related to such products. Orders filled from the Company's inventory are generally for less than container-sized lots.

Direct import sales are products sold by the Company's Asian subsidiary, directly to major U.S. retailers, who take ownership of the products in Asia. These sales are completed by delivering products to the customers' common carriers at the shipping points in Asia. Direct import sales are made in larger quantities than domestic sales, typically full containers. Direct import sales represented approximately 8% of the Company's total net sales for the three months ended March 31, 2024 compared to 6% for the same period in 2023.

The chief operating decision maker evaluates the performance of each operating segment based on segment revenues and operating income. Segment revenues are defined as total revenues, including both external customer revenue and inter-segment revenue. Segment operating earnings are defined as segment revenues, less cost of goods sold and operating expenses. Identifiable assets by segment are those assets used in the respective reportable segment's operations. Inter-segment amounts are eliminated to arrive at consolidated financial results.

The following table sets forth certain financial data by segment for the three months ended March 31, 2024 and 2023:

Financial data by segment:

Canada	11,094	8,557
Europe	9,059	9,302
Consolidated	<u>\$ 159,381</u>	<u>\$ 149,241</u>

6. Stock Based Compensation

The Company recognizes share-based compensation based on the fair value of the equity instrument on the grant date. Compensation expense is recognized over the required service period, which is generally the vesting period of the equity instrument. Share-based compensation expense was approximately \$449,000 for the three months ended March 31, 2024 compared to approximately \$424,000 for the three months ended March 31, 2023.

As of March 31, 2024, there was a total of \$3,102,278 of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested share-based payments granted to the Company's employees. As of that date, the remaining unamortized expense was expected to be recognized over a weighted average period of approximately three years.

7. Fair Value Measurements

The carrying value of the Company's bank debt is a reasonable estimate of fair value because of the nature of its payment terms and maturity. The Company's contingent liability related to the acquisition of Safety Made is recorded at its fair value of \$750,000 which is recorded in other current liabilities on the condensed consolidated balance sheet as of March 31, 2024.

8. Leases

The Company has operating leases for office and warehouse space and equipment under various arrangements which provide the right to use the underlying asset and require lease payments for the lease term. The Company's lease portfolio consists of operating leases which expire at various dates through 2029.

Certain of the Company's lease arrangements contain renewal provisions, exercisable at the Company's option. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

The Company determines if an arrangement is an operating lease at inception. Leases with an initial term of 12 months or less are not recorded on the balance sheet. All other leases are recorded on the balance sheet with right-of-use ("ROU") assets representing the right to use the underlying asset for the lease term and lease liabilities representing the obligation to make lease payments arising from the lease.

Operating lease cost was \$0.3 million for the three months ended March 31, 2024, of which \$0.1 million was included in cost of goods sold and \$0.2 million was included in selling, general and administrative expenses.

13. Divestiture

On November 1, 2023, the Company sold the assets of its Camillus Cutlery and Cuda business lines (the "Business") to GSM Holdings, Inc., a Delaware corporation ("GSM Holdings"), pursuant to an Asset Purchase Agreement entered into on the same date.

The purchase price for the Business was \$19,773,000. At closing, GSM Holdings paid \$18,273,000 to the Company; the balance of the purchase price, \$1,500,000, is subject to a 12-month holdback as a non-exclusive source of recovery primarily to satisfy indemnification claims under the Asset Purchase Agreement.

The Asset Purchase Agreement contains customary representations, warranties and covenants by the Company and GSM Holdings, including confidentiality, non-solicitation obligations and indemnification obligations. Under the terms of a related License Agreement dated November 1, 2023, the Company has provided a royalty-free, perpetual, non-exclusive license to certain patents held by the Company that are used in the Business.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Information

The Company may from time to time make written or oral "forward-looking statements" including statements contained in this report and in other communications by the Company, which are made in good faith pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Such statements are based on our beliefs as well as assumptions made by and information currently available to us. When used in this document, words like "may," "might," "will," "except," "anticipate," "believe," "potential," and similar expressions are intended to identify forward-looking statements. Actual results could differ materially from our current expectations.

Forward-looking statements in this report, including without limitation, statements related to the Company's plans, strategies, objectives, expectations, intentions and adequacy of resources, are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Investors are cautioned that such forward-looking statements involve risks and uncertainties that may impact the Company's business, operations and financial results.

These risks and uncertainties include, without limitation, the following: (i) changes in the Company's plans, strategies, objectives, expectations and intentions, which may be made at any time at the discretion of the Company; (ii) the impact of uncertainties in global economic conditions, including the impact on the Company's suppliers and customers; (iii) the continuing adverse impact of inflation, including product costs, and interest rates; (iv) potential adverse effects on the Company, its customers, and suppliers resulting from the wars in Ukraine and the Middle East; (v) additional disruptions in the Company's supply chains, whether caused by pandemics, natural disasters, including trucker shortages, port closures or otherwise; (vi) labor related costs the Company has and may continue to incur, including costs of acquiring and training new employees and rising wages and benefits; (vii) currency fluctuations including, for example, the fluctuation of the dollar against the euro; (viii) the Company's ability to effectively manage its inventory in a rapidly changing business environment; (ix) changes in client needs and consumer spending habits; (x) the impact of competition; (xi) the impact of technological changes including, specifically, the growth of online marketing and sales activity; (xii) the Company's ability to manage its growth effectively, including its ability to successfully integrate any business it might acquire; (xiii) international trade policies and their impact on demand for our products and our competitive position, including the imposition of new tariffs or changes in existing tariff rates; and (xiv) other risks and uncertainties indicated from time to time in the Company's filings with the Securities and Exchange Commission.

For a more detailed discussion of these and other factors affecting the Company, see the Risk Factors described in Item 1A included in the Company's Annual Report on Form 10-K for the fiscal year December 31, 2023 and below under "Financial Condition". All forward-looking statements in this report are based upon information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law.

Critical Accounting Estimates

There have been no material changes to the Company's critical accounting estimates as previously reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2023.

Results of Operations

Traditionally, the Company's sales and profits are stronger in the second and third quarters and weaker in the first and fourth quarters of the fiscal year, due to the seasonal nature of the Westcott back-to-school market.

Net sales

Consolidated net sales for the three months ended March 31, 2024 were \$44,956,000 compared to \$45,838,000 the same period in 2023, a decrease of 1%. Excluding the impact of the Camillus and Cuda hunting and fishing product lines sold on November 1, 2023, sales for the three months ended March 31, 2024 increased 1%.

Net sales in the U.S. for the three months ended March 31, 2024 decreased 2% compared to the same period in 2023. Excluding the impact of the sale of the Camillus and Cuda product lines, sales in the U.S. segment increased 1% for the three months ended March 31, 2024 compared to the same period in 2023.

Net sales in Canada for the three months ended March 31, 2024 decreased 7% in U.S. dollars (6% in local currency). Excluding the impact of the sale of the Camillus and Cuda product lines, sales in the Canadian segment increased 1% in local currency for the three months ended March 31, 2024 compared to the same period in 2023.

European net sales for the three months ended March 31, 2024 increased 5% in U.S. dollars (4% in local currency) compared to the same period in 2023. Excluding the impact of the sale of the Camillus and Cuda product lines, sales in the European segment increased 7% in local currency for the three months ended March 31, 2024 compared to the same period in 2023.

Gross profit

Gross profit for the three months ended March 31, 2024 was \$17,396,000 (38.7% of net sales) compared to \$16,281,000 (35.5% of net sales) in the same period in 2023. The increase in gross profit for the three months ended March 31, 2024 was primarily due to the impact of productivity improvements in the Company's manufacturing and distribution facilities implemented late in 2022 and lower inbound freight costs.

Selling, general and administrative expenses

Selling, general and administrative ("SG&A") expenses for the three months ended March 31, 2024 were \$14,838,000 (33.0% of net sales) compared with \$14,093,000 (30.7% of net sales) in the same period in 2023, an increase of \$745,000. The increase in SG&A expenses for the three months ended March 31, 2024 was primarily related to higher personnel related expenses.

Operating income

Operating income for the three months ended March 31, 2024 was \$2,558,000 compared with \$2,188,000 in the same period of 2023.

Operating income in the U.S. segment increased by \$558,000 for the three months ended March 31, 2024, compared to the same period in 2023. The increase in operating income for the three months ended March 31, 2024 was primarily due to productivity improvements at our manufacturing and distribution facilities, cost savings initiatives which included lowering SG&A expenses, as well as lower in-bound freight costs.

Operating income in the Canadian segment decreased by \$178,000 for the three months ended March 31, 2024, compared to the same period in 2023. The decrease in operating income was primarily due to lower sales of cutting, sharpening and measuring products.

Operating income in the European segment decreased by \$10,000 for the three months ended March 31, 2024, compared to the same period in 2023.

Interest expense, net

Interest expense, net for the three months ended March 31, 2024 was \$443,000 compared with \$902,000 in the same period of 2023, a \$459,000 decrease. The decrease in interest expense for the three months ended March 31, 2024 resulted from a lower average outstanding debt under the Company's revolving loan agreement.

Other income, net

Other income, net was \$44,000 in the three months ended March 31, 2024 compared to \$23,000 in the same period of 2023.

Income taxes

The effective income tax rate was 24% for the three months ended March 31, 2024 and 2023.

Financial Condition

Liquidity and Capital Resources

During the first three months of 2024, working capital increased approximately \$10.6 million. Inventory increased approximately \$1.3 million during this three-month period. Inventory turnover, calculated using a twelve-month average inventory balance, was 2.1 at March 31, 2024 and December 31, 2023. Receivables increased approximately \$6.7 million at March 31, 2024 compared to December 31, 2023. The average number of days sales outstanding in accounts receivable was 55 days at March 31, 2024 and December 31, 2023. Accounts payable and other current liabilities decreased by approximately \$4.7 million at March 31, 2024 compared to December 31, 2023.

The Company's working capital, current ratio and long-term debt to equity ratio are as follows (dollar amounts in thousands):

	March 31, 2024	December 31, 2023
Working capital	\$ 76,565	\$ 66,010
Current ratio	4.51	3.54
Long term debt to equity ratio	33.8%	23.9%

Long-term debt consists of (i) borrowings under the Company's revolving loan agreement with HSBC Bank, N.A. and (ii) amounts outstanding under the fixed rate mortgage on the Company's manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA. The revolving loan agreement provides for borrowings of up to \$65 million, at an interest rate of SOFR plus 1.75%; interest is payable monthly. The loan agreement has an expiration date of May 31, 2026. The Company must pay a facility fee, payable quarterly, in an amount equal to one eighth of one percent (.125%) per annum of the average daily unused portion of the revolving credit line. The facility is intended to provide liquidity for growth, share repurchases, dividends, acquisitions, and other business activities. Under the revolving loan agreement, the Company is required to maintain a specific ratio of funded debt to EBITDA, a fixed charge coverage ratio and must have annual net income greater than \$0, measured as of the end of each fiscal year. As of March 31, 2024, the Company was in compliance with the covenants under the revolving loan agreement as then in effect.

During the first three months of 2024, total debt outstanding under the Company's revolving credit facility increased by approximately \$10.1 million, compared to total debt thereunder at December 31, 2023. As of March 31, 2024, \$23,347,000 was outstanding and \$41,653,000 was available for borrowing under the Company's credit facility.

The Company's manufacturing and distribution facilities in Rocky Mount, NC and Vancouver, WA were financed by a fixed rate mortgage with HSBC Bank, N.A. at a fixed interest rate of 3.8%. The Company entered into the agreement on December 1, 2021. Payments of principal and interest are due monthly, with all amounts outstanding due on maturity on December 1, 2031. At March 31, 2024, there was approximately \$10.6 million outstanding on the mortgage.

The Company believes that cash generated from operating activities, together with funds available under its revolving loan agreement, will, under current conditions, be sufficient to finance the Company's operations over the next twelve months from the filing of this report.

Item 3: Quantitative and Qualitative Disclosure about Market Risk

Not applicable.

Item 4: Controls and Procedures

(a) Evaluation of Internal Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of March 31, 2024. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures were not effective as of March 31, 2024 as a result of an identified material weakness. As described in the Company's Form 10-K for the year ended December 31, 2023, the Company's information technology general controls (ITGCs) related to change management and logical controls were ineffective. The Company's remediation efforts related to this material weakness have commenced and are ongoing, as described in Item 4(b) below. Except as described below, there were no changes in the Company's internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

(b) Changes in Internal Control over Financial Reporting

In response to the material weakness identified above, the Company has implemented and is implementing changes to its internal control over financial reporting, including:

- The Company has acquired and implemented database change management and auditing software;
- The Company is designing and implementing associated management review procedures.

As we stated in the Company's Form 10-K for the year ended December 31, 2023, we believe that these actions will remediate the material weakness. However, due to the nature of the material weakness, it will not be considered remediated until the applicable controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. We expect that the remediation of this material weakness will be completed as of December 31, 2024.
